Instructor: Rae Tree
Office: 515 MS
Office Hours: Tuesday 2:00 – 3:30 pm  515 MSCS
       Wednesday 9:00 – 10:00 am  MLSC in Tutoring Room 1
       Thursday  2:30 – 4:00 pm  515 MSCS
       or by appointment
Meetings by phone or Video Conferencing can also be arranged
Phone: 744-1806
Email: rae.tree@okstate.edu

Email Communication: I will respond to email within 24 hours. In order to obtain a prompt response to your email communication please put your surname and course name as a prefix in the subject line. As an example if I were sending an email about registering for MyMathLab (MML) the subject line might read –

   Tree Math 1513-65488: Registering for MML

Webpage: Brightspace (Online Classroom)
MyMathLab Tech Support: 1-800-677-6337 or
http://www.mymathlab.com/contactus_stu.html

Syllabus Attachment. OSU has compiled useful information that applies to all classes at
http://academicaffairs.okstate.edu
This website includes add/drop/withdrawal dates, university holidays, accommodations for students with disabilities, academic resources, and much more. You are responsible for reading this information and having any questions answered.

This study of College Algebra involves the use of technology – the use of the graphing calculator has been integrated into the delivery throughout. Online methods are also used. Technology can be a tremendous aid in learning mathematics only if it is used appropriately. Technology is not a "quick fix" to learning functions or any mathematics! Because of the importance of technology today, a goal of the course is that you are comfortable with it and that you know when it is appropriate to choose technology in learning mathematics. I think you will find technology is a great asset in learning mathematics.

Course Prerequisites. A minimum score of 45 on the ALEKS assessment or a Grade of C or better in Math 1483. Some minimal familiarity with a graphing calculator such as the Texas Instrument TI-83Plus is also required.

Course Objectives. To learn college-level algebra and to complete the college mathematics requirements for further study of mathematics and of mathematically-dependent subjects.

Required Textbook Package and Supplies.
- **MyMathLab Access or Textbook Package.** You are required to purchase a bundle that includes MyMathLab access, a custom textbook, and a graphing calculator manual OR purchase a stand alone code for MyMathLab access OR purchase a code online as you register. All options have a digital textbook in MyMathLab. The text is *College Algebra: Graphs and Models (6th edition)* by M. Bittinger, J. Beecher, D. Ellenbogen, and J. Penna. Pearson Education, Inc., 2013. **Note:** If you do not register for MyMathLab immediately, you will not be able to complete required homework. You are responsible for registering in time to meet all course deadlines.

- **Graphing Calculator.** You are required to have a TI 83 or TI 84 series graphing calculator for this course. If you are in Stillwater or the surrounding area you may check out a TI-83 Plus graphing calculator from the Mathematics Department (401 MS) for use during the semester while the supply lasts; there is NO charge.
Computer Requirements. To complete the requirements for this course you will need access to a desktop or laptop computer that is equipped with a modern internet browser such as Internet Explorer, Chrome, Firefox or Safari. You will also need access to a scanner to scan your completed worksheets and then submit them via Dropbox on the D2L site. You will need to immediately register for MyMathLab (MML) to complete homework assignments and quizzes. Registration Instructions are posted on the D2L site under Contents.

Course Structure. This course is set up in weekly segments or modules which can be accessed in the Content tab of the D2L site. Each week will follow a similar format: read the specified sections in your text; watch a series of “video lectures” over the specified sections; work assigned problems in MML; complete a weekly quiz in MML; and submit a weekly worksheet via Dropbox on the D2L site. The weekly assignments are due each Saturday at 10:00pm with the exception of week 1 assignments which are due the Tuesday of week 2 at 10:00pm to facilitate beginning of semester and registering for MML. A weekly Discussion Board will be available using the Discussions tab for students to discuss the content for the week and pose any questions to each other that may arise. I will monitor the discussions, but rarely enter the discussions.

Course Outline. An outline of assignments, quizzes and exams, with details and due dates will be posted in the Content tab of the D2L site. It is your responsibility to make sure all work is submitted correctly and on time as outlined in the assignment instructions. All weekly homework assignments, quizzes, and worksheets will be due on Saturday by 10:00pm Central Time. (Please note Week 1 has some added time to accommodate any MML registration irregularities, beginning of semester assignments, getting into the routine etc.) Any assignments not submitted on time will be considered late and will not be graded for credit.

Course Evaluation. Grades for this course will be distributed among homework, worksheets, MML weekly quizzes, hourly exams, and the final exam as shown below. Course grades will be determined according to the following distribution.

<table>
<thead>
<tr>
<th>Assignment Type</th>
<th>Percentage</th>
<th>Grade Range</th>
</tr>
</thead>
<tbody>
<tr>
<td>Homework</td>
<td>20%</td>
<td>Letter grades will be assigned according to the following scale.</td>
</tr>
<tr>
<td>Worksheets</td>
<td>15%</td>
<td>90 – 100%</td>
</tr>
<tr>
<td>MML weekly quizzes</td>
<td>5%</td>
<td>80 – 89.99%</td>
</tr>
<tr>
<td>Mid-Term Exams</td>
<td>40%</td>
<td>70 – 79.99%</td>
</tr>
<tr>
<td>Final Exam</td>
<td>20%</td>
<td>60 – 69.99%</td>
</tr>
<tr>
<td></td>
<td></td>
<td>0 – 59.99%</td>
</tr>
</tbody>
</table>

I reserve the right to make adjustments to the above scale when appropriate.

Homework. Most homework will be completed online using the MyMathLab (MML) program. The total number of points possible on each homework assignment is 10 points. All homework for the week is due by 10:00pm Saturday except as noted above for week 1. Late work will not be accepted.

Worksheets. During the semester you will complete Worksheets each week on the material covered during the week. All work must be shown. Worksheets will need to be printed, each question worked out and then scanned and submitted via the Dropbox on the Brightspace site each week by 10:00pm Saturday with the exception of week 1 as noted above. Each Worksheet will be worth 20 points. The worksheets will be graded and feedback will be given on the Brightspace site. Worksheets will be posted on the content tab on the D2L site. Late worksheets will not be accepted.
**Quizzes.** Each week a 10 question quiz over the material covered during the week will be taken using the MML program. You may take the quiz up to 6 times and the best score will be recorded. Each quiz will be slightly different. There will be a 30 minute time limit on each quiz. The quiz score each week will be out of 10 points.

**Examinations.** There will be four (4) hour examinations with a possible score of 100 points each and a 200 point comprehensive two (2) hour final examination. All Exams must be Proctored and a Proctor Agreement must be on file with Mrs. Tree prior to the first exam. Make-up midterm exams will be given only for documented, valid and unavoidable conflicts. Your request to receive a make-up exam must be made in writing in advance for known conflicts or within 24 hours of the exam date when extenuating circumstances arise (documentation required). If this condition is not satisfied, it is understood that the opportunity to receive a make-up exam is voided. In the instance that a make-up exam is appropriate, arrangements will need to be made with myself, and your proctor to accommodate the make-up exam. Bring your student ID to each examination.

Valid reasons for make-up exams include:

- University activities (e.g. field trips, athletic teams, etc.)
- Military obligation, jury duty or other mandatory court appearance
- Serious illness or injury of student or immediate family (parent, sibling, spouse, son, daughter)

**Exam Replacement Opportunity:** You will be able to replace ONE of the four midterm exam scores with your percentage score on the final exam, after a 10% deduction. For instance, if your first four exam scores are 85, 78, 72, and 63, and your final exam score is 80% (160 out of 200), then you can replace the fourth exam score (63) with a score of 70 (calculated as follows: 80 – 10 = 70%). If this calculation results in a score lower than your lowest score on the midterm exams, then there will be no exam replacement. The final exam is mandatory and no other exam scores may be used to replace it.

**Exam Dates.** Exams will be held on the following dates; mark your calendar NOW!

- **Exam 1:** Thursday September 13 over 1.1-1.6 & 6.1 & 3.5
- **Exam 2:** Thursday October 11 over 2.1-2.6 & 3.1-3.4
- **Exam 3:** Thursday November 1 over 4.1-4.5 & 7.1-7.2
- **Exam 4:** Thursday November 29 over 5.1-5.6
- **Final Exam:** Thursday December 13 (Comprehensive)

**Exam Proctors.** All Exams must be Proctored and a Proctor Agreement Form must be on file with Mrs. Tree prior to the first Exam. Having a qualified proctor provides exam integrity and also lets us know where to send your exam so that you are able to take it as scheduled. The proctor qualifications letter and the Proctor Agreement Form are on the Brightspace site under Course Documents of the Content tab. Complete the Proctor Agreement Form, send a copy to me via email or hand delivered.

It is the responsibility of each student in the course to arrange for a proctor as soon as possible after the semester begins and let their instructor know using a proctor agreement form. For students who are living on or near the OSU campus, there are two options:

- **In-class testing** with the instructor (dates/times listed below; free of charge)
- **University Assessment and Testing Office** located in the UAT Building at 1524W Admiral (charge is $20/exam)

The in-class testing is recommended if it is possible for the student.
For students who are living in other parts of the state, country or world and cannot test on the OSU campus, you must use an approved testing center on a college or university campus. In exceptional circumstances, other accommodations may be considered.

I will offer proctoring on the Stillwater Campus at the following times and locations:

- Exam 1: Thursday September 13, 5:30-6:30pm 514 MSCS
- Exam 2: Thursday October 11, 5:30-6:30pm 514 MSCS
- Exam 3: Thursday November 1, 5:30-6:30pm 514 MSCS
- Exam 4: Thursday November 29, 5:30-6:30pm 102 CLBN
- Final Exam: Thursday December 13, 12:00noon-1:50pm 102 CLBN

MLSC: Mathematics Learning Success Center – If you are on the Stillwater Campus the MLSC is an invaluable resource to support your mathematical learning. The MLSC is located on the 5th floor of the Library. For more information, visit the MLSC website at www.math.okstate.edu/mlsc, or call 405-744-5818 or 405-744-5688. I would encourage you to take advantage of this resource if you are on the Stillwater Campus.

Drop and Withdrawal Policy (General University Policy 2-0206). "Dropping" means withdrawing from a specific course while "withdrawal" means withdrawing from all courses and leaving the University for the balance of the term. The drop and withdrawal dates are noted on the syllabus attachment. IT IS YOUR RESPONSIBILITY TO KNOW AND COMPLY WITH ALL DEADLINES. Reasons similar to those listed below will NOT result in approval for dropping a course after the deadline (from OSU Policy 4.03):

a. Student's lack of knowledge or misunderstanding of the deadline.
b. Student waited to get the results of an exam or other assignment.
c. Student's grades have declined since the deadline.
d. Student doesn't need the course for graduation.
e. Different deadlines existed at a previous school.

Incomplete Grade. The grade of "I" is given to students who satisfactorily complete the majority of the course work and whose work averages "D" or better, but who have been unavoidably prevented from completing the remaining work of the course. A condition that the students must repeat the course in order to remove the "I" is not permitted. The maximum time allowed for a student to remove an "I" is one calendar year.

Academic Integrity. The university has explicit rules governing academic integrity. Working with another person or in study groups on problems can be helpful in learning the material. I encourage you to work together if you find it helpful. However, all written and online work submitted must be your own. Copying someone else's problem solution, showing your written solution to someone else, or having another person complete your online work is prohibited; such behaviors are regarded as violations of academic integrity and will be treated according to the University’s policy. In order to be successful in learning the material and doing well on the examinations you must think very hard about the problems themselves before discussing them with anyone else.
Special Accommodations for Students. If you think you have a qualified disability and need special accommodations, you should notify the instructor and request verification of eligibility for accommodations from the Office of Student Disability Services. Please advise the instructor of your disability as soon as possible, and contact Student Disability Services, to ensure timely implementation of appropriate accommodations. Faculty have an obligation to respond when they receive official notice of a disability but are under no obligation to provide retroactive accommodations. To receive services, you must submit appropriate documentation and complete an intake process during which the existence of a qualified disability is verified and reasonable accommodations are identified. Call 405-744-7116 or go to http://sds.okstate.edu/.

Office Hours. I encourage you to come talk to me during my office hours (or email for an appointment if you can’t make any of those times) when you have questions or concerns if you are on the Stillwater Campus. Also make use of the Google+ office hours to get questions or concerns addressed. I am also only an email away. Please get help early if you are confused or do not fully understand a concept.

Final Note. Any changes to this syllabus will be communicated to you by the instructor through email or on our course website.
