

Calculus III: Math 2163-62204

Fall 2018

Instructor:	David Stapleton		
Office:	MSCS 436	Office phone:	744-2302
Classroom	AGH 201	MWF 12:30-1:20	
Office hours:	Mon. 9:30-10:20, Wed. 10:30-11:20, Fri. 2:30-3:20* (*=the Friday afternoon hour is held at the Mathematics Learning Success Center (MLSC), 5 th floor of the Edmon Low Library).		
Brightspace D2L material:	https://my.okstate.edu/ (click on <i>Online Classroom</i>)		
e-mail:	david.stapleton@okstate.edu		

Prerequisites: MATH 2153 (Calculus II) with a grade of C or better.

Text and Resources:

1. Calculus, 3rd Ed., by Jon Rogawski, W.H. Freeman & Co., required with WebAssign: <http://www.webassign.net/v4cgi/selfenroll/classkey.html>
2. Brightspace by D2L class notes and practice problems: <https://my.okstate.edu/>
3. TI-89 or TI-Nspire CAS (don't get it without CAS!) or similar calculator (recommended)
4. MLSC tutoring (times TBA) at the 5th floor, Edmon Low Library (optional).

Course Objectives:

To learn multivariable calculus, where notions from single-variable calculus are generalized to apply to functions of more than one variable. This includes analytic geometry in three dimensions and basic notions of vectors and vector calculus.

Evaluation Criteria:

There will be three midterm examinations, WebAssign homework, and a final examination, with the exams worth 100 points each, WebAssign worth 100 points, and the final exam worth 100 points, for a total of 500 points possible. The exam grades will be determined by A: 90-100%, B: 80-89%, C: 70-79%, D: 60-69% unless easier curves are announced in class for specific exams. If you must miss an examination other than the final exam then it may be made up, provided the reason for missing is approved by the instructor and the exam is made up within one class week. You should immediately enroll for WebAssign at <http://www.webassign.net/v4cgi/selfenroll/classkey.html> using the class code

okstate 1863 5220

Dishonest Work: Participating in a behavior that violates academic integrity will result in an official academic sanction. Violations may subject you to disciplinary action including the following: receiving a failing grade on an assignment, examination or course, receiving a notation of

a violation of academic integrity on your transcript, and being suspended from the University. You have the right to appeal.

Office of Student Disability Services (SDS) 315 Student Union/405-744-7116 <http://sds.okstate.edu/> . According to the Americans with Disabilities Act, each student with a disability is responsible for notifying the University of his/her disability and requesting accommodations. If you think you have a qualified disability and need special accommodations, you should request verification of eligibility for accommodations from the Office of SDS.

Syllabus Attachment: For additional policies that apply to all courses at OSU see the University attachment: <http://academicaffairs.okstate.edu>, click on “Students,” “Resources for Students,” and “Current Syllabus.”

Important Dates:

- **Monday, August 20:** First day of classes
- **Monday, August 27:** Deadline for dropping without a W (and full tuition refund)
- **Friday, August 31:** Deadline for dropping with a W (and partial tuition refund).
- **Monday, September 3:** Labor Day, no classes
- **Friday, September 21: Exam 1**
- **Friday, October 9:** W Drop/Withdraw deadline
- **Wednesday, October 17: Exam 2**
- **Friday, October 19:** Fall Break (No classes)
- **Wednesday-Friday, November 21-23:** Thanksgiving break, no classes
- **Wednesday, November 28: Exam 3**
- **Monday, December 3 to Friday, December 7:** Prefinals Week (a.k.a. Dead Week)
- **December 12, Wednesday, 10:00-11:50:** Final Exam

Course Outline:

Section	Topic	Estimated lectures
CH 12	Vector Geometry	
12.1	Vectors in the Plane	1
12.2	Vectors in Three Dimensions	1
12.3	Dot Product and the Angle between Vectors	2
12.4	The Cross Product	2
12.5	Planes in Three Space	1
11.5	Conic Sections	1
12.6	A Survey of Quadric Forms	1
12.7	Cylindrical and Spherical Coordinates	1
CH 13	Calculus of Vector-Valued Functions	
13.1	Vector-Valued Functions	1
13.2	Calculus of Vector-Valued Functions	1
13.3	Arc Length and Speed	1
13.4	Curvature	(Drop)
13.5	Motion in Three Space	1
13.6	Planetary Motion according to Kepler, Newton	(Drop)
CH 14	Differentiation in Several Variables	
14.1	Functions of Two or More	1

	Variables	
14.2	Limits and Continuity in Several Variables	1
14.3	Partial Derivatives	1
14.4	Differentiability and Tangent Planes	1
14.5	The Gradient and Directional Derivatives	1
14.6	The Chain Rule	1
14.7	Optimization in Several Variables	2
14.8	Lagrange Multipliers: Optimizing with constraint	1
CH 15	Multiple Integration	
15.1	Integration in Two Variables	1
15.2	Double Integrals over more general regions	1
15.3	Triple Integrals	1
15.4	Integration in polar, cylindrical, and spherical	2
15.5	Applications of Multiple Integrals	1
15.6	Change of Variables	1
CH 16	Line and Surface Integrals	
16.1	Vector Fields	1
16.2	Line Integrals	2
16.3	Conservative Vector Fields	2
16.4	Parametrized Surfaces and Surface Integrals	(Drop)
16.5	Surface Integrals of Vector Fields	(Drop)
CH 17	Fundamental Theorems of Vector Analysis	
17.1	Green's Theorem	2
