

MATH 2144: Calculus I, Section 63379

Syllabus

Instructor Contact Information

Instructor: A.-K. Gallagher
Email: anne-katrin.gallagher@okstate.edu
Office: MSCS 511
Phone Office: (405) 744-1800
Office Hours in MSCS 511: TW 12:00pm - 1:00pm
Office Hour in the MLSC: M 12:00pm - 1:00pm

Class & Resource Information

Class Meeting: MTWF 8:30am - 9:20am, Class Location: PS 355
Online Classroom (Brightspace): <https://online.okstate.edu/> (Chrome, Firefox, or Safari work best)

Prerequisites: A satisfactory score (minimum 70) on the ALEKS placement exam, or a grade of “C” or better in a college-level course in Trigonometry or Pre-Calculus.

Required Materials:

- (1) Textbook: Calculus: Early Transcendentals, 3rd edition, by Jon Rogawski, and
- (2) Online homework system WebAssign (<http://www.webassign.net/login.html>).
 - For Section 63379 use WebAssign Class Key: okstate 6517 4961.

The Mathematics Learning Success Center (MLSC): The Mathematics Learning Success Center (MLSC) is located on the 5th floor of the Edmon Low Library. The hours of operation are Sunday 1pm-9pm, Monday-Thursday 9am-9pm and Friday 9am-5pm. Tutoring for Calculus I will be in the West Tutoring Room. Check the MLSC's website (<https://math.okstate.edu/mlsc/>) for information about special tutoring, office hours, and review sessions for your course.

Calculators: TI-83 and TI-84 models are permitted for all exams. A TI-89, Nspire, or a calculator with a computer algebra system, any technology with wireless or Internet capability (i.e. laptops, tablets, smart phones or watches), a QWERTY keyboard, or a camera are **not allowed** for exams. If you do not own an allowable calculator, you may borrow a calculator for the semester from the Department of Mathematics office without charge. Graphing calculators can be a valuable tool, but not a substitute for your own conceptual understanding.

Course Information

Calculus deals with functions that relate two varying quantities and the rules that govern the rates at which one of these quantities changes or accumulates with respect to the other. Understanding calculus enables us to solve many problems in mathematics, science, and engineering. Our aim in this course is to ensure that you understand the concepts and tools of calculus, that you master the skills required to use those tools, and that you will be able to apply the foundational ideas of calculus to solve problems in many disciplines.

Expectations: All students are expected to be active participants in class by asking and answering questions. During class, the use of cellphones, tablets, and laptops is prohibited since these can be distracting. Plan to spend, on average, eight hours each week outside of class on MATH 2144. This includes reading the text, working on problems, discussing questions with others, and making use of office hours and the MLSC. Should you miss class, you are responsible for what you missed.

Missing Work Policy: Your instructor will make reasonable accommodations in the event that you miss a major assessment for a valid and documented reason, **assuming documentation is provided in advance** unless absolutely impossible. For a ~~quiz or~~ exam, you need to notify your instructor as soon as you know there is a conflict; you will be ineligible for a make-up if you do not.

Syllabus Attachment: Please access and read the OSU syllabus attachment on the web page:

<http://academicaffairs.okstate.edu/content/resources-faculty-staff>. Follow the link under Syllabus Attachment for Fall 2016. This document contains important information, including instructions about disability accommodations. Please contact your instructor privately during the first week of the course if you need accommodations as the result of a disability. Any changes to this syllabus will be announced in class and posted on Brightspace.

Grades:

There are two schemes. The one that results in the higher grade for each student will automatically be used:

	Scheme A	Scheme B
Exams 1-3	15% each	10% each
Final Exam	25%	40%
Homework: WebAssign	15%	15%
Quizzes	15%	15%

Determination of Grades: $90\% \leq \mathbf{A} \leq 100\%$, $80\% \leq \mathbf{B} < 90\%$, $70\% \leq \mathbf{C} < 80\%$, $60\% \leq \mathbf{D} < 70\%$, $\mathbf{F} < 60\%$

Homework: To learn calculus you must practice! You will have **WebAssign** assignments. Assignments will be due on Tuesdays. (midnight). For each problem you will have 3 chances to answer without any reduction in score, and then two additional chances with a reduction of 20% each time. Individual computer problems are not a valid excuse for failing to complete a WebAssignment. To avoid such issues work and complete the assignments well before the deadline. Keep a homework notebook where you work out the WebAssign problems and/or print the assignments problems and keep them in a binder. Set up your account at <http://www.webassign.net/login.html> using the class key **okstate 6517 4961**. The first assignments are **due on Tuesday, August 23!**

Quizzes: There will be a total of 8 in-class quizzes; your three lowest scores will be dropped. No make-up quizzes will be given. For the schedule of the quizzes, see the Tentative Calendar posted on Brightspace. The quizzes will be given at the beginning of class and will last between 5 and 20 minutes. The first quiz will be given on **Friday, August 26!**

Exams: There will be three one-hour exams in the evenings, and a comprehensive Final Exam.

Exam 1: Thursday, September 15 from 5:30 to 6:30 PM

Exam 2: Thursday, October 20 from 5:30 to 6:30 PM

Exam 3: Thursday, November 17 from 5:30 to 6:30 PM

Final Exam: Monday, December 5 from 12:00 to 1:50 PM

All of your exams will be in CLBN 102. You are permitted an allowed calculator and a 3×5 note card.

Email:

You are welcome to e-mail me when you encounter a problem with this class or the assignments which you have not been able to resolve by going to the MLSC, by attending my office hours or talking to classmates. Use your okstate-e-mail account, identify yourself by name and section and state your problem clearly. This will help me to respond efficiently in a timely manner.

Academic Integrity & Drops

Academic Integrity: Oklahoma State University is committed to the maintenance of the highest standards of integrity and ethical conduct. Please see the OSU Fall 2015 Syllabus Attachment for more information. You are encouraged to work and study together, however **all written and online work you submit must be your own**. Copying someone else's solutions or letting others copy your work is prohibited. Do not cheat. Violations may subject you to disciplinary action including the following: receiving a failing grade on an assignment, examination, or course, receiving a notation of a violation of academic integrity on your transcript (F!), or being suspended from the University.

Drops and Parachutes: The nonrestrictive add/drop deadline is Monday, August 22nd. Within two weeks of the start of classes, Dr. Francisco may be able to parachute students to College Algebra, Trigonometry or Precalculus without any grade penalty. Talk with your instructor immediately if one of these classes is more appropriate for you.
