

Department of Mathematics, Oklahoma State University

Honors Topics in Calculus III, Math 2910 - CRN 68053, Fall 2016

Lectures:

Tuesday 10:30 AM – 11:20 AM in PS 112

Instructor: Mahdi Asgari

Office: MS 525

E-mail: asgari@math.okstate.edu

Tel: 744-6718

Office Hours: Tuesday 2:00 PM - 3:00 PM in MLSC

Thursday 10:30 AM - 11:30 AM in MS 525.

Description: This weekly course presents certain material that run roughly parallel to the regular Calculus III course. The material may include generalizations, applications, or reinterpretations of what are discussed in the regular course or other topics of interest related to them. I expect us to spend one or two classes on each topic.

Assignments and Grading: I will give an assignment pertaining to the topic discussed in each class which you will complete and turn in at the start of the next class. These assignments will be graded and will be the basis of your course grade. However, I will drop your lowest assignment score prior to determining the course grade in order to account for unforeseen circumstances which may prevent you from turning in an assignment on time.

No other exams or quizzes will be given.

While you are welcome to discuss the assignments with others in class, what your turn in should be your own individual work.

Attendance and Absences: You are expected to attend each and every class meeting and will be responsible for knowing everything discussed or announced in class.

OSU Syllabus Attachment: For general university policies and important dates see the syllabus attachment for the current semester. It can be accessed via <http://academicaffairs.okstate.edu/> under Resources for Students. You will also find information about academic integrity and other useful information on this website.

Note:The instructor reserves the right to make modifications to this course information sheet throughout the semester if it becomes necessary to do so.
