Math 2163, Calculus 3, Spring 2016, Section 006

Instructor: Sophia Xie

Office: MSCS 518

Office hours (tentative): Monday 2:30 PM - 3:30 PM and Tuesday 3:40 PM - 4:40PM, at MSCS 519D, Wednesday 12:30 PM - 1:15 PM, at MLSC, room 1, and by appointment

E-mail: sophia.xie@okstate.edu

Prerequisites: Grade of C or better in Calculus I and Calculus II or equivalent

Text: *Calculus (Early Transcendentals)* by Jon Rogawski, 2nd Edition

Calculator: A calculator is allowed for this course (without QWERTY keyboards, Internet connections, and symbolic manipulation capabilities)

Location and hours: MWF 1:30 PM - 2:20 PM, LSE 217

WebAssign site: https://www.webassign.net/login.html. Class key: okstate 6875 7924

Online Classroom (D2L) site: https://oc.okstate.edu (then log in and find our course)

Exams: All exams will be in class. The tentative exam dates are Friday, February 12, Friday, March 11, and Friday, April 15. I will communicate any changes in class and in writing. The final exam is on Monday, May 2, from 2:00 PM to 3:50 PM. You must tell me in writing by Monday, April 25, if you have a university-approved conflict with the final exam time; if you do not meet that deadline, you may not be allowed to take a conflict exam, and if you are, you will have your score decreased up to 15% as a penalty. I cannot give a conflict exam if you do not have a university-approved conflict. **Make up exams are available only if permission is given by me prior to the regularly scheduled exam.**

Online homework: Online homework will be assigned after each class period and will be due once a week. You are expected to complete all online homework by due dates, and I do not accept late online homework, nor do I drop any grades. You can ask me if you have extenuating circumstances; I will be more generous if it is a one-time problem. You will use WebAssign to do the online homework. You should print out the WebAssign assignment well in advance of the due date and write your work on paper before trying to enter answers online. Computer or network difficulties will not be excused for late homework.

Written homework: One short written homework will be assigned in class each week, usually but not necessarily announced in advance. I do not accept late written homework, nor do I drop any grades. Missed written homework can only be made up for unavoidable absences such as serious illness or official university business. Proper documentation is required. You are encouraged to work with others, but be sure to write up your own solutions.

Grading: There are two schemes, and for each student, I will pick the one that gives the higher grade.

Scheme 1	Scheme 2
3 hour exams 15% each	3 hour exams 10% each
Final exam 25%	Final exam 40%
Online homework 20%	Online homework 20%
Written homework 10%	Written homework 10%

Earning a score of 90% guarantees an A for the semester, 80% a B, 70% a C, and 60% a D. I reserve the right to use discretion if you are on the borderline between two grades, taking into consideration performance on the last exam, improvement or decline during the semester, attendance, and my subjective judgment of your effort.

Attendance: You are expected to attend class regularly.

Mathematics learning resource center: http://www.math.okstate.edu/mlsc. I encourage you to take advantage of MLSC to get help with the course material and your homework.

Special Accommodations for Students with Disabilities: If any member of this class feels that he/she has a disability and needs special accommodations of any nature whatsoever, I will work with you and the Office of Student Disability Services, 315 Student Union, to provide reasonable accommodations to ensure that you have a fair opportunity to perform in the class. Please advise me of such disability and the desired accommodations at some point before, during, or immediately after the first scheduled class period.

Academic Dishonesty/Misconduct: The university has explicit rules governing academic dishonesty and academic misconduct. The policies are detailed in the document Student Rights and Responsibilities Governing Student Behavior. It is available from the Deans Offices, the Provosts Office and various other places around campus. The university policies will be followed in this class.

Syllabus attachment: Important information that applies to all classes at OSU is on the web at:

https://academicaffairs.okstate.edu/sites/default/files/Fall%202015%20Syllabus.pdf

FINAL NOTE. I WILL ANNOUNCE ANY CHANGES IN THIS SYLLABUS TO YOU IN CLASS.
