Textbook: Calculus, 2nd. ed, Early Transcendentals, by Jon Rogawski.

Course Objectives: In a sequel to Calculus I and II, our goal is to learn more advanced topics in the calculus, which include vector calculus, geometry of space, calculus of several-variable functions, techniques of multiple integration, and the analysis of parametrized curves.

Prerequisites: Minimum grade of C for MATH-2153, or equivalent AP exam credit; differential and integral calculus of functions of several variables and an introduction to vector analysis.

Grades: The course grade is based on 1000 points which are distributed as follows:

Homework	200pt
Quizzes	100pt
Three In-class Exams@150each	450pt
Final Exam	250pt
Total	1000pt

The final grade will be based on the total score with the following approximate cut-offs:

A: 900 − 1000	B: 800 − 899	C: 700 − 799	D: 600 − 699	F: 0 - 599

Exams: There will be three in-class exams and one final. *For the exam schedules*, please see the schedule sheet on the next page. † *All exams are held in the regular classroom.* Exam 1 covers 12.1–12.7, 11.5, 13.1–13.2; Exam 2 covers 13.3, 13.5, 14.1–14.7; Exam 3 covers 14.8, 15.1–15.6; The final exam will be cumulative, i.e., all sections above and 16.1–16.3, 17.1.

Homework: Homework assignments will be submitted online through WebAssign: https://www.webassign.net/login.html. No late homework will be accepted. Each assignment due date is posted on WebAssign. You will need the following **Classkey**:

  okstate 5981 3939

Quizzes: There will be *5-10 minute in-class or take-home* quizzes during the semester. Your *one lowest* quiz score will be dropped. No make-up quiz will be allowed.

Calculators & Important Comments: Calculators (not graphing/programming) will be allowed on exams and quizzes. It is also important that you learn to do simple manipulations by hand. Class attendance is expected. Reading the sections in the textbook ahead of time is recommended. *The Mathematics Learning Success Center (MLSC), on 5th floor of Edmon Low Library, can provide free tutoring assistance and other services.* Please, check the exact office hours via the website http://www.math.okstate.edu/mlsc or call (405) 744-5818.

Online Classroom(D2L): http://oc.okstate.edu. There will be useful information for the class: e.g., the syllabus, some solutions, lecture notes etc. will be uploaded in "**Content**" on this site.
